Compare Your Insurance Experience

	mesh VI	Other
## Streamlined Processes		
1. All-In-One Consolidated Vehicle List & Live Coverage View No more separate spreadsheets for each coverage (Physical Damage, Non-Trucking, Occupational Accident, Auto Liability, Cargo, etc. are all in one place).	✅	⛔
2. Easy Visual Grid Overview of Unit Coverages Core 4 Logic™ lets you quickly know which units have each coverage with a glance and quickly change the insurance status by clicking on the grid icon. Response Needed Logic™ call to action reminds users of any missing asset responses.	✅	⛔
3. MVR Access for Insurance and Motor Carriers Fully integrated Samba Safety Volta & Qorta MVRs and live MVR monitoring at discounted pricing. Batch order MVRs for an entire fleet. Save time and money!	✅	⛔
4. No More Emails with Audit Trails All vehicle and driver changes are consolidated in one system and easily trackable by user. No more trying to keep up with unit and drive changes in email. Allow more than 1 user to make changes and diagnose any mistakes. Reduced E & O exposure.	✅	⛔
5. Document Manager: Shared or Private Save and share at many levels to allow fast and easy finding attached to Clients, Policies, Vehicles, Drivers, etc. Drag & drop endorsements or Lease Agreements or anything.	✅	⛔
## Certificates, Reports & Integrations		
6. Issue Acord® Certificates by Vehicle, Driver, or Batches Easy and instant access to issue Acord 25 certificates for agency users or insureds. Online access to issue certificates 24/7 from any computer or phone with internet access. Certificate Holders & Lienholders/Loss Payees have never been simpler.	✅	⛔
7. Automatic Monthly Insurance Reports Reports generate automatically – less work for you every month. No more manual reconciliation. Embedded payments with ePayPolicy, Simply Easier Payments, and more.	✅	⛔
8. Easy to Integrate Existing integrations include: DOT data, ELD, MVRS, payment processing, premium finance, AMS, TMS, and many more!	✅	⛔
## Other Time-Saving Features		
9. Drivers: Employees, Independent Contractors, & Mixed Fleets Driver Types Handled: Independent Contractors, Owner Operators, Lease to Purchase, Contract Drivers, Leased Contractors, & Employees. Document manager to help with DQ and DOT Audits	✅	⛔
10. VIN Decoder Built-In – Catch Duplicate VIN and Units For complete VINs, you will get a notification if there may be an error in the VIN. Avoid paying for accidentally duplicated vehicles.	✅	⛔
11. Bulk Import & Export Vehicle & Driver Lists To/From Excel Alerts are given on import if data is duplicated or incomplete (i.e. VIN not 17 digits).	✅	⛔
12. Track Non-Sponsored PD, NT, OA Coverage for IC's Track which independent contractor units are on sponsored vs non-sponsored plans.	✅	⛔
13. Batch Edit Vehicles & Email Certificates Edit many vehicles at once, including value, owner, lienholder, etc. You can also email multiple vehicle certificates at once (i.e. all units with the same lienholder).	✅	⛔

Our goal is to help eliminate tasks, not the job, making team members more efficient.
